

PUBS British and Irish

LIST of PUBS IN FLORIDA. Phone pub for directions and to ask if they show English football, rugby or cricket. We are not mind-readers, so pubowners email us updates otherwise this list is as current as it can be, since British pubs change constantly. Irish Pubs: We only list some Irish pubs, because unlike British pubs, there are hundreds in Florida, authentic Irish-run and fake American wannabe-Irish. We maintain the only complete database on every British pub in Florida since 1991. The pile of files marked CLOSED British Pubs is pretty high. It takes far more than a British accent to run a successful pub. The ones that folded have often been run by Brits with little business acumen or background, just the romantic notion of owning a pub. Another frequent reason for closure is British pub-owners selling the place on to Americans with well-meaning intentions but no clue how to maintain it as a really British pub. Once it ceases being authentic, which can be done even in Florida, the British customers stop going and so do the many Americans seeking a pub like the ones they've enjoyed in England. BUSINESS MARKETING NOTE: If an American wants an American bar that's where he'll go, so keeping your pub AUTHENTICALLY BRITISH or IRISH is the key to keeping customers. ----PK

NOTE TO BRITISH PUBOWNERS and patrons: Email any updates to publisher@britishflorida.com Sign email with name/city/phone. The list below is reference only--we do not review pubs. So pop in for a pint and decide yourself.

-
