

## Flying and Aviation

**FACT:** More Brits come to Florida for flying lessons than any other USA state. Flight instruction in Florida is cheaper than in the UK, so many UK trainees get certified here and return to UK with their pilot's licence. Also, of course Florida has the perfect flying weather and year-round visibility. In all aspects of the aviation business in Florida, you will find a considerable number of key Brits contributing: As flight instructors, maintenance experts and mechanics, executives, flight school owners, pilots at executive jet centres and aircraft leasing offices.

PELICAN FLIGHT TRAINING CENTRE in Pembroke Pines Florida is British-owned, established many years, highly respected and one of the best places for Brits to take flying lessons. Charter FABB members since 1997. Helicopter lessons too. Call [954] 966-9750 Ask for British owner/operators Meg Fensome and Terry Fensome. Terry was a pilot for Laker Airways [and other airlines] for many years.
